

SCANCO MEDICAL

Industry-Leading Provider of microCT (micro-computed tomography) Systems and Solutions

SCANCO Medical has been a pioneer in the field of high-resolution computed tomography for more than two decades. Starting with the first installation in Switzerland in 1988 we now have systems for medical and industrial applications operating on six continents. We offer a wide range of [microCT](#) scanners for specimen and preclinical as well as clinical use. These systems are supplied with high-end computing equipment and sophisticated analysis and visualization software to provide the most comprehensive and industry-leading imaging solutions.

SCANCO Medical also offers scanning, analysis and consulting services for a wide range of applications.

SCANCO Medical scanners are used on many of the most prominent universities and research institutions world wide. Some of our many users can be found on our [User Reference pages](#).
